WHAT IS A COLLEGE?

Sounds like a silly question but some people aren't sure as teachers don't talk much about College in Schools

Colleges like Lincoln and Newark College are places where you can learn practical skills for work as part of qualifications like BTECs, as well as more traditional qualifications like A Levels and now the new T Levels.

We call our teachers lecturers and lots of them have worked in the industry they teach for many years. Even our A level lecturers tend to have more industry experience than teachers in most Schools.

Many of our students progress from their level two and three courses into apprenticeships, where they are employed by a company while they continue to learn new skills and gain higher qualifications. Others progress on to University as our practical qualifications and the new T Levels

are the equivalent of A Levels and gain you UCAS points to go to University if you want to.

Perhaps the most important thing you need to know is that this is an equally valuable route into your chosen career as Sixth Forms and Universities. In fact, many of our students go on to earn really good money in stable careers quicker than young people who take the more traditional route.

So, College is right for some people and Sixth Form is right for others, but don't feel pressured into picking one over the other by the people around you. Take your time, read our student guides like this one, make sure you visit all of the places you are considering and make the right choice for you.

“ I LOVED HOW LAID BACK COLLEGE WAS IN GENERAL - NO UNIFORM, CALLING TUTORS BY THEIR FIRST NAMES AND GENERALLY BEING MORE ADULT AND OPEN

Lee Footitt
BTEC in IT

HOW IS IT DIFFERENT FROM SIXTH FORM?

At College you'll be treated like a young professional and our facilities are designed to reflect the true working environments.

IT'S A LITTLE MORE INFORMAL

You're likely to be on first name terms with your lecturers and as long as you treat them with respect, you'll be learning in an environment where you're treated like an adult.

YOU CAN WEAR WHAT YOU WANT

Although some of our courses mean you have to wear workwear, a lot of the time, you can dress how you like - many of our students feel this helps them express themselves.

YOU CAN MANAGE MORE OF YOUR OWN TIME

Many courses require you to attend College for around three days a week. You'll have lots of work to do outside of this time, but we trust you to manage your own study time. Many of our students choose to work part time too - and we encourage this as it gets you ready for the world of work - as long as you can manage your studies too!

OUR EXPECTATIONS ARE THE SAME AS EMPLOYERS

Although some things are more informal than School, we expect 100% attendance and we expect you to be motivated and professional. If these things start slipping we will start working with you to improve your performance.

YOU WON'T JUST BE DOING A COURSE

At our Colleges you'll be doing a Study Programme that will include your main qualification, but also tutorials, Maths and English and work experience and industry placements.

WHAT CAN I EXPECT?

“**COLLEGE IS A FANTASTIC OPPORTUNITY AND ONE IN WHICH THE SKILLS YOU LEARN WILL BE WITH YOU FOR LIFE**

Gina Johnson-Hirt
Leisure and Tourism

A REALLY BIG WELCOME

We call the first six weeks of College Life 'The Big Welcome'. We have lots of activities and lots of staff focused on helping you to settle in, find your way around and get to grips with your course.

AMAZING FACILITIES

From industry standard workshops and great libraries to amazing sports and leisure facilities - you'll certainly notice a big difference from School and we want you to take full advantage - work hard and play hard!

A REALLY SAFE PLACE TO STUDY

Even though we have large campuses at Lincoln and Newark, we have security staff and wardens to patrol and make sure our students are safe at all times. We also make sure everyone onsite wears their ID lanyards at all times.

LOTS OF SUPPORT

Our Student Services team is there to help you every day. There is financial support available to you and a counselling service to help you if you need someone to talk to. We understand that we need to support you to succeed.

GCSES DONE: NOW WHAT?

There are lots of options open to you after your exams – all are valid and all can lead to a great career – it's just about finding the right fit for you.

Your main choices are A Levels, Technical Training, T Levels and Apprenticeships.

It's really important to point out that none of these pathways cancel each other out. For example, you don't have to do A Levels to get to University. Many of our students complete Level 2 and Level 3 technical qualifications and then go to University - as technical qualifications also carry UCAS points the same as A Levels do. Apprenticeships don't carry UCAS points (unless it includes a technical qualification) - however, you can do a foundation course for a year and then progress to University.

We deliver all of these different types of courses, including a wide range of degree courses at Lincoln College. If you progress onto one of our degree courses, at the end of the first year, you will receive our fantastic £1,000 cashback deal.

If you want to get into work sooner, then technical qualifications are probably the right choice for you! Many of our learners earn good money in their career of choice faster than friends that went to University.

For more information on the courses available please visit our website.

TECHNICAL TRAINING

Our technical training courses empower students with industry-focused education, led by expert lecturers directly from the field. Gain practical skills and knowledge that align perfectly with the demands of today's competitive job market for a promising career.

“

**COLLEGE IS THE PLACE TO BE!
IT'S WHERE YOU'LL START YOUR
CAREER OFF. THERE ARE SO MANY
REWARDING OPPORTUNITES.**

Kian Deighton
ASI pilot

Students on technical training courses learn from our expert lecturers who have worked in industry for years and cannot only teach you the skills you need, but also get you ready for the culture and expectation of the sector you want to work in.

You will learn in industry-standard workshops that have the latest equipment and many technical courses are assessed predominantly via coursework projects rather than exams.

Technical training opens a world of possibilities. Our programmes offer seamless progression through Level 2 and 3, setting a strong foundation for your future aspirations. Whether you're aiming for Higher Education at University or eager to jumpstart your career, you will be equipped with the skills, knowledge and confidence to excel.

For more information on the courses available please visit our website.

Student Spotlight

OSCAR LACEY

TECHNICAL TRAINING

Oscar Lacey, a Level 3 Construction and the Built Environment student, has excelled in his work placement at Galliford Try.

Since September 2022, Oscar has worked closely with the highway and structures teams, undertaking various tasks to gain broad experience to support his studies. Oscar's employers have been so impressed with his dedication that he will continue working with them – progressing to Level 4 Apprentice in September 2023.

Within a year, our technical courses have equipped students like Oscar for their next steps and hold exciting prospects for the future - making vital industry connections and allowing students to thrive academically and with hands-on experience.

Oscar said *"I have been working in Grantham as a site engineer, carrying out various engineering roles such as setting out and performing quality checks. While on placement, I enjoy the tasks I carry out. It feels good to be included and part of a team!"*

Read more about the Future Careers Expo and what opportunities it brings for both employers and students.

“**THERE ARE MANY THINGS THAT HAVE IMPRESSED ABOUT OSCAR - SUCH AS HIS DESIRE TO LEARN, ALWAYS ASKING QUESTIONS AND BEING WILLING TO CARRY OUT TASKS, ALWAYS PUNCTUAL AND SMART, BUT THE THING THAT HAS IMPRESSED ME MOST IS HOW HE HAS ADAPTED AND GROWN OVER THE MONTHS.**

Barry Knox
Senior Project Manager
at Galliford Try

SPECIALIST PROGRAMMES

We take pride in our specialist programmes that provide unparalleled technical training. Our dedicated team of industry experts ensures you receive the highest quality education with hands-on training that equips you with the knowledge and expertise needed to succeed.

“
BEING ABLE TO OVERCOME CHALLENGES WITH THE SUPPORT OF THE TEACHERS AND FELLOW STUDENTS BUILDS YOUR CONFIDENCE AS WELL AS LEARNING SOMETHING NEW WHICH CAN BE SO REWARDING!

Olivia Wells
Access to HE

Students on our specialist technical training programmes benefit from the invaluable expertise of our accomplished lecturers. With their extensive industry experience, our tutors will not only equip you with the necessary skills but also provide valuable insights into the culture and expectations within your desired sector.

You will learn in industry-standard workshops that have the latest equipment and many technical courses are assessed predominantly via coursework projects rather than exams.

Our specialist employer-led training programmes give students incredible opportunities with industry experts and experiences.

These include:

- The Policing College
- The Care College
- The Air & Space Institute
- Lee Stafford Academy
- Lincoln School of Food and Hospitality

For more information on each of our specialist pathways and courses please visit our website.

lincolncollege.ac.uk
For advice call: 030 030 32435

FINISHING SCHOOL

Our specialist training courses also include the opportunity to work in our finishing schools. They are businesses we have bought and set up to give students opportunities to train in live commercial settings.

AIR & SPACE INSTITUTE (ASI)

This year, ASI students will benefit from our new £15m HQ in Newark, co-designed with industry giants to provide an out of this world aviation and space engineering environment. As well as incredible flight simulators, it even contains a jet aircraft for students to work on.

LINCOLN SCHOOL OF FOOD & HOSPITALITY

We've recently invested hundreds of thousands of pounds in new professional training kitchens at Lincoln College. We've also installed new barista and mixology (cocktail-making) suites to ensure students are fully prepared for their hospitality careers.

THE LEE STAFFORD ACADEMY & AURA

Our brand-new hair courses are delivered in partnership with Lee Stafford Education. The stylist to the stars has trained our staff and co-designed the curriculum to prepare you to operate at the highest level. Celebrity Lee Stafford will visit you several times with his team to deliver training sessions and talk to you about how to build a successful career.

We have also opened a stylish new salon in Lincoln City Centre called Aura, where our level 3 students train and work with customers in a live commercial environment - this helps students develop their customer service skills and work to the highest standards for paying customers.

THE DRILL

When The Drill Hall went into administration during the pandemic, Lincoln College stepped in - and invested £1m in a refit, relaunching it as The Drill, a live music and comedy venue that also delivers events, weddings and exhibitions. The Drill is now a fantastic training ground for our Performing Arts, Production Arts, Lincoln School of Food and Hospitality and Events Management students - giving them a real taste of high-pressure, large-scale productions and events.

THE DRILL

The Old Bakery

THE OLD BAKERY

Lincoln School of Hospitality students also benefit from working at The Old Bakery as part of their course. The College has bought this fine dining restaurant and hired specialist chefs and front-of-house experts to run it as a not-for-profit commercial venture - giving students the opportunity to help prepare and serve fine-dining cuisine to customers.

REAL INDUSTRY TRAINING

As well as helping you to complete work experience and industry placements in more than 1,000 local businesses, we're also focused on giving you access to industry environments during your course.

Our workshops and studios give you access to state-of-the-art equipment. We've invested in building fantastic environments and acquired businesses for you to hone your skills.

WHY & HOW WE DO IT

We are different from most Colleges in that we raise additional income via the UK and international commercial activity - all of this is re-invested into the environments and businesses described above.

We do this to achieve our purpose: to be an extraordinary, employer-led organisation, producing a highly skilled and productive local workforce.

By enabling you to experience real-life industry training, we help you to develop the communication, problem-solving and leadership skills you need to thrive in your career.

Student Spotlight

LUCY BELL + ELOISE PALMER

SCHOOL OF FOOD
AND HOSPITALITY

Lucy Bell, a current Level 3 Professional Chef student, recently gained work experience at a Michelin star restaurant, The Pipe and Glass. Alumni student Eloise Palmer also has a full time position at the Yorkshire based restaurant.

Eloise returned to her roots at College, working alongside Michelin Star Chef James Mackenzie, Lucy Bell and her classmates to create and deliver a collaborative menu to open a newly refurbished Sessions Restaurant at Lincoln College.

Eloise Palmer, Alumni Catering student "I started my journey at Lincoln

College studying Level 1 in Catering and progressed to Level 2 and 3 qualifications. Whilst undertaking my studies, I had work experience at the Pipe and Glass supporting the Pastry Chef doing prep. Now I am a full time commis chef. What I enjoyed most about the course was experiencing the different aspects of the industry to find where I fit best."

Watch our videos for the School of Food and Hospitality.

FEED THE 5000

At College, we participate in various social action projects to allow students to put their skills into practice to make positive change.

Both Catering & Hospitality and Hospitality & Tourism students prepared delicious pumpkin dishes kindly donated from a local Nettleham farmer and Waitrose & Partners, serving to the public at Thors Tipi in the Lincoln Cornhill. This included over 150 pumpkins, which were turned into 750 portions of soup, 650 muffins and 400 portions of pumpkin traybake! The students gained great work experience paired with lessons in sustainability; using surplus food to reduce waste.

“

COMING FROM A PERSON WHO ISN'T HIGHLY ACADEMIC THIS IS BY FAR THE MOST REWARDING 3 YEARS I COULD HAVE ASKED FOR, THIS COURSE HAS SET ME UP PERFECTLY FOR THE POLICE, AND NOW HAVING FINISHED MY COURSE AND PASSED MY POLICE INTERVIEW I CANNOT VOUGH FOR THE COURSE AND THE STAFF ENOUGH, I HIGHLY RECOMMEND THIS TO ANYONE

Olly Clark, Level 3 Sports Student progressing to Lincoln College Policing Degree

COURSE ENRICHMENT

Policing Students plunge into curriculum enrichment trip to the Lincolnshire Police control room and get first-hand experience searching the crime scene on-site at Deans Park.

- Policing students and lecturers were interviewed by BBC Radio Lincolnshire about their curriculum enrichment trip to the Lincolnshire Police control room where they saw first-hand how everything operates and the varied roles available beyond College.
- Students split into groups with team leaders and call signs assigned in the debrief. After a risk assessment, they searched the crime scene – on-site at Deans Park. Tasked to identify suspicious items, record on logs and call control via radios using grid references. Crime scene investigators then collected forensics and DNA to give students an enriching experience in life as an officer.

TOPICS I'D NEVER
COME ACROSS BEFORE!

Rebecca Andrew
A Levels

STUDYING A LEVELS

We have a great range of A Level subjects, from which you need to choose three subjects

The A Level pathway is designed for 16-18 year olds wishing to study full time and progress to Higher Education or employment. You need to apply to one of the A Levels you are interested in. On the application form it will ask you to enter the other A Levels you would like to apply for.

Our experienced subject specialists make supporting you in your learning journey a priority. You will study 3 subjects, with lessons across the week, and be part of a group tutorial alongside other students with similar interests to yourself. As well as gaining academic support from each of your subject teachers, you will be assigned a Progress Coach to guide you in applications to Higher Education and support your progress. There are 17 subject choices which can be chosen in any combination of 3. For many subjects you will take the AS Level in the first year, giving you valuable examination practice and UCAS points, before moving on to the full A Level in the second year. For those subjects described as linear you will study the full two year A Level only.

A Level Subjects:

- Accountancy (linear)
- Art (linear)
- Biology
- Business
- Chemistry
- Core Maths (AS only)
- Criminology
- English Language
- English Literature (linear)
- Geography
- History (linear)
- Law (A Level or BTEC Applied Law)
- Mathematics
- Physics
- Politics
- Psychology (linear) and Psychology (BTEC Applied Psychology)
- Religious Studies
- Sociology

For more information on each of our A Levels pathways and courses please visit our website.

KALLIE BAUCKHAM

A LEVELS

“
WHAT I LIKED MOST ABOUT LINCOLN COLLEGE WAS THAT ANY EFFORT YOU PUT IN IS GOING TO BE MATCHED BY YOUR TEACHERS. THE SUPPORT THAT I’VE HAD FROM MY TEACHERS HAS BEEN ABOVE AND BEYOND - THEY’VE BEEN THERE FOR ME EVERY SINGLE STEP OF THE WAY.

Kallie Bauckham
A Level student

Kallie Bauckham, a dedicated A Level student achieved remarkable success at Lincoln College, paving the way for her dream of studying Veterinary Medicine at the prestigious University of Edinburgh.

Kallie’s academic journey was marked by exceptional achievements, including securing three A* grades in Biology, Chemistry and Mathematics.

Despite adversities, Kallie demonstrated resilience and determination throughout her studies. Kallie relayed the fantastic support received from her lecturers.

Read more about Kallie’s story.

STUDYING T LEVELS

T Levels are a new, 2 year qualification designed to give you a head start towards the career you want. The government has developed T Levels to deliver world class technical education and give you a new choice after GCSEs

About T Levels

- T Levels are a brand new, 2 year qualification that you can do as an alternative to A Levels, other post 16 courses or an apprenticeship. They bring classroom learning and an extended industry placement together on a course designed with businesses and employers.
- T Levels are ideal if you have finished your GCSEs and want the knowledge and experience to get straight into employment, an apprenticeship or Higher Education. You'll spend 80% of your time in the classroom and 20% on a 45 day placement with an employer to give you the skills and knowledge companies look for.

Why choose T Levels?

A T Level is a nationally recognised qualification that is worth the same number of UCAS points as 3 A Levels. Endorsed by businesses, they include a 45 day industry placement to help you learn what a real career is like.

- T Level students will have an extra hour in their weekly schedule for EEP sessions (employment, enrichment, pastoral) throughout year 1 and 2 to develop their employability skills further. Students will also have an employer project which combines observations on industry placements and theoretical knowledge acquired from classes.

Created with businesses

T Levels have been designed with leading businesses and employers to give you the knowledge and skills you need to get ahead in your career. More than 200 businesses – including Fujitsu and Skanska – have been involved so you can be confident your T Level will move you to the next level.

Qualifications that count

When you pass your T Level, you will get a nationally recognised certificate showing the overall grade you achieved - pass, merit, distinction or distinction*. It will also give details of what you learned on the course to help you move into skilled employment or a higher apprenticeship.

T Level student in the hospital training suite

Awarded UCAS points

Your T Level will be worth UCAS points – a T Level Distinction* is worth the same as 3 A Levels at A* – and will be recognised by Universities and other education providers so you can choose to continue studying if you wish.

Like A Levels, there are no tuition fees to study a T Level if you start before you are 19. Schools and Colleges set their own entry requirements, so check their website or contact them direct to find out more.

T Level student training

What T Levels can I do at Lincoln College?

Lincoln College started the delivery of T Levels in September 2022. The following T Levels are available:

- Education and Childcare
- Engineering and Manufacturing – Mechanical Engineering
- Health and Science
- Accounting

We also offer Level 2 transitional programmes to progress you onto the Level 3 qualifications, these include:

- Health and Science
- Education and Care
- Business and Administration
- Accounting

“ COLLEGE HELPED ME TO DEVELOP MY UNDERSTANDING THEORETICALLY BUT ALSO PROVIDED THE SKILLS TO PUT THIS KNOWLEDGE INTO PRACTICE WHEN IN WORK. ”

Jessica Tilley
Childcare

Student Spotlight

ZOE ROBINSON

T LEVELS

Zoe Robinson is a first-year T Level Health and Science student and one of the first cohorts at Lincoln College to undertake the T Level qualification. Zoe will be heading into second year in September 2023.

Zoe Robinson, "The course has been good so far. We have had a very eclectic experience - from in the classroom with teachers to being in the hospital with different professionals. With it being a new course, I wasn't sure what it would be like, but I like it - you also get a real-life view of what you want to do.

Within the course, we had a 45 day placement at Lincoln County Hospital. You see different areas of the hospital gaining respect for what they do and see how departments run within the hospital. I was in and out of wards a lot, it is fast-paced. I got to see the MRIs, X-rays, dressing changes, equipment

operation and helped out with stamping paperwork and cleaning.

The course helped set in my mind what I want to do in the future - during the placement, it can give you an idea of workplace expectations and whether you can handle them. Next year, I will be specialising in Adult Nursing. I am excited we have high-tech dolls and sensory rooms at College - set like a hospital where we can do realistic scenarios - you can talk to the dolls like patients, give them the medicine, and then the dolls respond to the medication like a person would."

Health and Science specialisms:

- Midwifery
- Mental Health Therapies and Adult Nursing
- Paediatrics

Did you know

T Levels are equivalent to three A levels with 80% class work and 20% real-work, developed with employers in a wide range of industries to give you a next level skill and give you a head start!

You can find out more about our T Level courses by visiting our website.

lincolncollege.ac.uk

We have trained over 4,200 apprentices in a wide range of roles

STUDYING APPRENTICESHIPS

Apprenticeships are a great way to get on the career ladder, so you can start earning cash while you train and gain your independence quicker

They're also a cost effective way to change your career later in life - enabling you to cover the bills while you retrain.

If you've taken time out to raise children or for health reasons, they enable you to refresh your expertise in your career of choice.

And they're not just for new starters to a company. If you're already in a career you love for a firm you're happy with, but want to move to the next level, they're a cost-effective way to enable your company to elevate you - just talk to your boss about it.

It's true that apprenticeships are a great way for 16-18-year-olds to learn a trade, but one of the most common misconceptions is that's all there is to them.

Higher and Degree Apprenticeships can be a way for a senior managers to learn the skills they need to progress to the peak of their careers.

The first step is to find an apprenticeship vacancy (similar to a job vacancy) with a local firm. You apply just like you would for a job, but don't worry, our team will help you every step of the way - even helping you to write your CV and coaching you for your interview.

You can even start applying for these over the summer in your final year of GCSEs.

What about if I'm in my final year at School?

You can start looking at our website for apprenticeship vacancies during your final term and over the Summer - we'll do our best to help you secure an apprenticeship job by September.

When you leave School you must be in full time education or an apprenticeship until the age of 18, so in case you don't secure an apprenticeship job, we advise all of our School Leavers to apply for a full time course in a related subject as well. On our application we ask you if you want to be an apprentice and if you tick this box we help you search for an apprenticeship while you're on your course and you can transfer as soon as you find one.

How do I become an Apprentice?

You can check out all of our current apprenticeship vacancies by scanning the QR code.

What Levels can I do?

- Intermediate (Level 2)
- Advanced (Level 3)
- Higher (Level 4/5)

DIOR REGAN

APPRENTICESHIPS

From a full time Study Programme learner at Lincoln College to a Painting and Decorating Apprentice at Lindum.

During her studies at Lincoln College, Dior has shown exceptional talent and dedication, earning the Apprentice/Young Achiever of the Year at the esteemed Greater Lincolnshire Construction and Property Awards 2023. She has demonstrated her skills competing nationally in the highly competitive finals of SkillBuild 2022 in Edinburgh.

With her outstanding performance in the heats, she secured her spot as one of the top 8 finalists in her trade. Looking ahead, in September 2023, Dior will proudly represent Team GB at the prestigious EuroSkills competition in Gdańsk, Poland. This esteemed event will bring together 20 of the UK's most talented apprentices and students.

SUPPORTED EDUCATION

Our Supported Education department ensures that students receive the necessary support, specialist equipment, and adapted resources.

The team of dedicated specialists assess the support needs of learners and facilitates exam concessions and extra time for students with special educational needs, disabilities, or health problems.

We offer a wide range of courses designed to provide extra support and learning, tailored to prepare students for their chosen careers. These individualised study programmes focus on developing practical skills in various areas.

Student Collaboration: Plant Sale

Supported Education Construction Students made planting preparations early in the academic year at our on-campus planting plots - cultivating a variety of fresh vegetables and herbs to support our College foodbank and promote healthy eating!

This Spring Supported Education Retail students took charge and transformed the campus into a vibrant display - arranging stall tables with flowering plants, hanging baskets, and planters, all at incredible prices. Students gained exciting customer service skills, including selling and pricing!

All Supported Education programmes are entry level.

These include:

- Skills for Catering
- Skills for Construction
- Skills for Creative & Performing Arts
- Skills for Customer Service & Enterprise
- Skills for Employment & Education
- Skills for Health & Social Care
- Skills for Independence
- Skills for Sport
- Supported Internships & Employment Programme

“

I HAD THE HONOUR OF RECEIVING A SPOTLIGHT AWARD, DUE TO MY EXCEPTIONAL LEARNING AND OVERCOMING ADVERSITY. THIS YEAR I HAD WORK EXPERIENCE AT LINCOLN COLLEGE IN SEVERAL DEPARTMENTS INCLUDING REPROGRAPHICS AND THE MAIN RECEPTION. I'VE BEEN AT THE COLLEGE 3 YEARS; MY EXPERIENCE HAS BEEN NOTHING BUT FANTASTIC – THE STAFF AND STUDENTS ARE REALLY WELCOMING!

Cameron Fogg

Student Spotlight

JAMES OTT

SUPPORTED EDUCATION

James Ott, a talented student from Lincoln College's Supported Education programme found his stride through a transformative work experience at The Old Bakery, a fine dining restaurant and finishing school.

The Old Bakery's commitment to supporting the younger generation has allowed James to develop his specialist skills whilst showcasing his enthusiasm, proactive attitude and professionalism. James, as part of the course, embarked on an exciting adventure when he joined the team at The Old Bakery for his work experience placement.

Craig Gollin, Head of Commercial Catering, *"It has been a pleasure to have James join our team at The Old Bakery while he completed his 30 hours of work experience. James' confidence and communication skills have flourished in such a short timeframe."*

"We look forward to many more students doing work experience, industry placements or paid employment at The Old Bakery. This project gives students the industry knowledge and support needed for a successful future."

FURTHER EDUCATION AWARDS

“SOMETIMES I SIT AND THINK ABOUT HOW FAR I’VE COME IN MYSELF, MY MENTAL HEALTH AND ACADEMICALLY...IT STILL DOESN’T MAKE SENSE TO ME THAT TWO YEARS AGO I WAS NOT ABLE TO STEP OUT OF MY OWN FRONT DOOR, BUT COLLEGE HAS HELPED ME ON MY JOURNEY BACK.

Darcy Palmer
Phillip Dawson Supported Education Award winner

Step into the spotlight at our annual Further Education Awards ceremony!

The wonderful occasion welcomes friends and family of our most exceptional students to gather and celebrate the incredible accomplishments of 24 outstanding individuals, representing diverse fields and disciplines.

The success stories we honour are a testament to perseverance and dedication, so embrace your journey, seize the opportunities that await you at College – you could be next!

A Level Student Award: Humphrey Maganga.

After the death of both parents relocated from Kenya - catching up online after travel and Covid restrictions, Humphrey has transitioned brilliantly to a new country, home, college and job.

“
THE DRIVING SCHEME IS AN EXCELLENT WAY FOR STUDENTS ON AN INDUSTRY PLACEMENT TO SUPPORT THEIR CAREER PROSPECTS. THE COUNTY IS SO LARGE IT CAN BE DIFFICULT FOR PEOPLE TO GET AROUND IN CERTAIN INDUSTRIES, SO HAVING DRIVING LESSONS AND PASSING THEIR TEST CAN HELP REMOVE THE BARRIERS FOR THE STUDENT GETTING A JOB OR APPRENTICESHIP.

Vikki Thornley
Industry Placement and
Work Experience Coordinator

Student Spotlight

OSCAR LACEY + TOBY TOWNSEND

FREE DRIVING LESSONS

*Terms and conditions

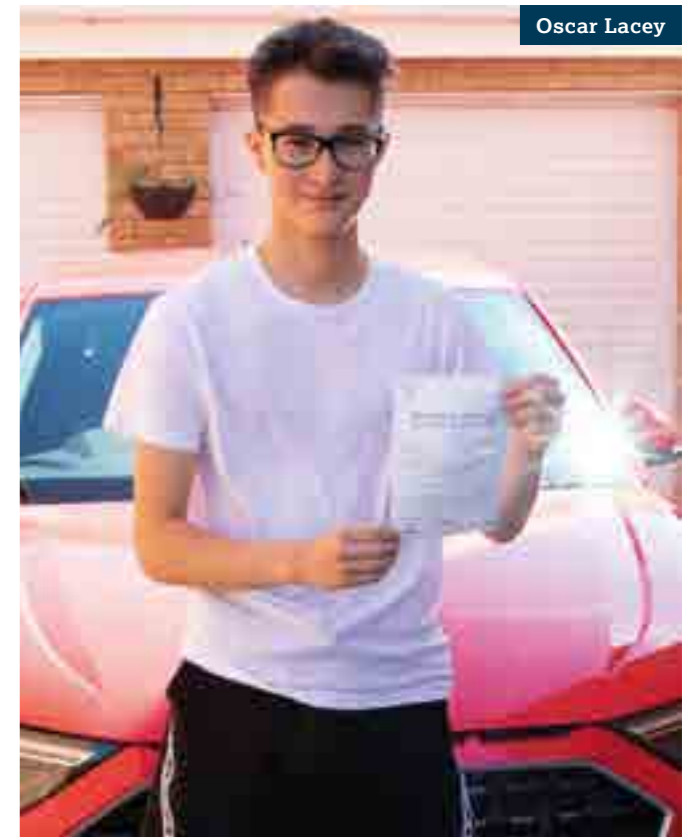

Students must be up-to-date with their logbook, have 95% attendance at college, hold a provisional licence, and have already passed their theory test. The initiative covers the cost of all lessons, theory and practical tests. Subject to availability.

The free driving lessons scheme is open to all students completing an industry placement relevant to their level two or three courses*

Oscar Lacey, a Level 3 Extended Diploma in Construction and The Built Environment student passed his test first time on the free driving lessons scheme. Oscar has excelled in his Site Engineer role at Galliford Try, accessing remote locations for jobs thanks to the scheme.

Toby Townsend, an Electrical Engineering working at Linwave Technologies, said *“It took about 5 months of weekly lessons to pass, which quickly adds up. With the driving lessons being paid for, I could just focus on learning to drive and not worry about how much it costs. This relieved a lot of stress around the test date. Being able to drive myself to work gives me so much independence and I’m glad I found out about the great initiative.”*

SOCIAL ACTION PROJECTS

Our Colleges are the beating heart of the local community, generating significant social and economic value. Here are just a few of our stories...

ASI charity cycle, run and row

Charity Run: Air & Space students ran the distance between all Lincoln College Group campuses and RAF Cranwell – a total distance of 98 miles (159km). they managed to raise £250 for the RAF Benevolent Fund.

Charity Cycle: Students cycled from RAF Waddington to RAF Scampton, this event was supported by local Lincoln City Foundation on behalf of the RAF Benevolent Fund. Collectively three Air & Space classes raised over £1000 for the RAF Benevolent Fund.

Charity Row: Air & Space students raised £395 for the RAF Benevolent Fund. They managed to row the distance of the evacuation route Y which equates to 100 miles (161 km) Dunkirk to Dover.

Charity Hair Fundraiser

Travel & Tourism students raised money for an array of charities with different purposes. The dedicated team raised £600 for St Barnabas, the Little Princess Trust also received two hair donations and a £15 donation whilst Mind received £30. The students also raised £30 for the RSPCA which enabled 8 shoeboxes to be filled for an animal shelter in Radcliffe On Trent. These projects were supported cross disciplinary – hairdressing students’ skillsets were utilised to cut and colour donating student’s hair. Construction students supplied wood and paint for the placards whilst computing and digital marketing students designed promotional posters.

TRAVEL THE WORLD WITH US

Various academic disciplines have the chance to embark on exciting trips with their classmates. Recently, the School of Food & Hospitality students enjoyed a fully funded Erasmus trip to Denmark to learn new techniques in the kitchen and open their world of catering beyond the UK. Meanwhile, ASI students ventured on a transformative aviation trip to Stavanger, Norway. Let's take a closer look at the ASI's trip.

In an exciting venture twelve Air and Space Institute (ASI) students on the Military and Defence pathway embarked on a remarkable enrichment trip to Stavanger, Norway. Through the support of the Turing Scheme, these aspiring aviation professionals enjoyed a fully funded trip to the renowned Sola Aviation Academy.

Elizabeth, Level 3 Military & Defence Engineering student said: *"This was my first trip abroad, and it was a good introduction to what it's like travelling. One of the tasks that I really enjoyed whilst in the hangar was on a V5FA freedom fighter where we got to conduct a hydraulic systems test. We also had enrichment days – one day we went surfing and another we hiked up a mountain – seeing a cave and frozen waterfall on the way and lunch by a lake."*

The students had the opportunity to undergo two weeks of practical aviation training while immersing

themselves in a new country and experiencing its cultural and societal differences. The practical training at the esteemed Sola Aviation Academy allowed them to hone their aviation expertise and gain hands-on experience. From navigating aircraft to understanding maintenance protocols, the students were exposed to various facets of the aviation industry, broadening their perspectives and nurturing their passion for flight.

Beyond the educational aspect, the trip served as a cultural exchange, fostering an appreciation for the rich heritage of Norway. Immersed in the vibrant atmosphere of Stavanger, the students had the chance to interact with local communities, sample traditional cuisine, and explore the breathtaking natural beauty of the region. The Norwegian team, known for their professionalism and hospitality, ensured that the students had a first-rate experience, making their time in Stavanger truly unforgettable.

The ASI students' enriching trip to Stavanger, Norway, was an unforgettable experience that combined practical aviation training with cultural immersion. On the trip students were able to expand their skillset, broaden their perspectives, and develop a deeper appreciation for the world of aviation. As ASI looks toward the future, the annual exchange opportunity with Norwegian students and colleagues signifies a promising collaboration that will continue to nurture the dreams and aspirations of aspiring aviators.

“IT HAS BEEN REALLY MEMORABLE – WE MADE SOME GREAT, LONG-LASTING FRIENDSHIPS WITH THE STUDENTS IN NORWAY.”

Amy Garner
Level 3 Military & Defence Engineering Student

**A FUN, FRIENDLY PLACE TO STUDY
WITH GOOD SUPPORT FOR EVERYONE
- NO MATTER WHAT BACKGROUND OR
WHAT ROUTE CAREER WISE.**

Jordan S.
Mechanical Engineering

DON'T KNOW WHAT TO CHOOSE?

**The Careers Guidance Team
provides support for career planning
and decisions.**

We can help you to make well informed decisions about your progression and future plans.

Careers Guidance appointments are available throughout the year; you don't even have to be a student at the College to make an appointment.

We also welcome parents/carers to join their young person for a careers guidance interview.

Our fully qualified and experienced careers guidance practitioners provide impartial advice and guidance.

They can help with:

- Career planning and career decisions
- Course choice
- Researching career opportunities
- UCAS applications and personal statements
- Job search and application skills, including CV advice

Our service has achieved the nationally recognised Matrix standard for excellence in the delivery of information, advice and guidance.

If you're not sure whether to apply for a course at College or if an apprenticeship would suit you better, make an appointment to discuss the options with one of our qualified Careers Guidance Advisers. We will help you to draw up an action plan of the steps you need to take to achieve your career and education goals.

To make an appointment with a Careers Guidance Adviser call our Careers and Course Information Office on **030 030 32435** or email **careers@lincolncollege.ac.uk**

For more information on what support is available at Lincoln College visit our website.

HOW TO GET A PLACE AT COLLEGE

1 Track your progress by ticking each box!

ABOUT US

Check out our website www.lincolncollege.ac.uk to see what courses we offer, you can apply straight away if you want to.

2

OPEN DAYS

Look at the 'Open Days' section of the website to get dates of when you can come and see us. You can tour the campus, chat to tutors and get careers advice here too.

3

APPLY ONLINE

When you've decided on a course or apprenticeship, fill in your online application. On your application you'll be asked to pick a date to come in for a Welcome Day. It's really important that you do this.

4

YOUR INVITATION

When you've applied we'll send you an invite to a Welcome Day. This is an informal visit to College to find out more and take part in a taster session.

5

WELCOME DAY

On the day you'll have a tour, chat to lecturer and take part in a taster session. This is a chance to decide if you've made the right choice, but also to see our facilities. Your tutor will make you a conditional offer. The conditions will relate to your GCSE results.

6

WORK HARD

It's now time to work hard and get the best results you can to meet your conditional offer.

To find out about more about our open days visit our website.

lincolncollege.ac.uk
For advice call: 030 030 32435

APPLICATION PROCESS

7

THE APPLICATION

In July we will email you a link to complete the final stage of your application. You'll need to upload a picture of yourself and fill in some extra information that the Government asks us to collect.

8

YOUR RESULTS

When you get your GCSE exam results, you will need to attend your enrolment day at College so we can check you have met your entry requirements. If you haven't met the entry requirements, don't worry - you can talk to our Careers Team - they will help you enrol on a suitable alternative course.

9

ENROLMENT DAY

After you have attended your enrolment and collected your Student ID card, we will confirm the start date and time of your course at college. You will also have your timetable and information about your first day provided.

WE'VE BEEN GRADED AS OFSTED GOOD

Inspectors said the College was meeting the needs of local employers, learners and the wider community, with students progressing to positive career destinations.

Also the industry expertise of teachers motivated students to make good progress and develop the skills they need in the workplace.

The campuses were assessed by a team of inspectors in March 2018. Inspectors also commented that leaders at the Colleges have created a culture where staff are "focused on the craft of teaching" and that learners received "very effective support".

Lincoln College strives to maintain and improve on its standards and to offer the very highest levels of support to its students. The College's purpose is to be an extraordinary 'employer-led organisation; producing a highly skilled and productive local workforce'.

Being employer-led means we listen to employers and involve them in the planning and design of our curriculum.

By doing this we can be confident that the education and training we provide is giving our students the skills and knowledge they need to succeed when they start their careers.

Lincoln College, including its campus at Newark, is graded as Ofsted Good.

CAREER DEGREES AT LINCOLN COLLEGE UNIVERSITY CENTRE

Stay local and go far with
our Career Degrees

Career Degrees at Lincoln College University Centre

A highly competitive job market across most sectors can make securing graduate roles challenging, that's why we've developed Career Degrees, to give our students the opportunity to get ahead of the competition at interview and help them secure the career of their dreams.

Our classes are smaller which means our students can receive more one-to-one time with their tutors, as well as engaging debates and collaborative working with fellow students. With our condensed timetables, students may choose to work while studying, look after family or enjoy a better study-life balance. Plus, our university-level students graduate in an annual ceremony held in and around the grounds of the historic Lincoln Cathedral.

We have a variety of degrees covering a wide range of subject areas including: Animal Management, Business, Construction & Engineering, Computing, Education, Health, Photography & Media, Policing, and Sports.

For more information, please visit our website: lincolncollege.ac.uk/university-centre

Alternatively, contact our friendly team or attend an upcoming Open Day to learn more about our courses and the many benefits of studying for a degree at Lincoln College University Centre.
